

**Procedure to follow to arrange an Exhibition Game on
GameSheets**

Should your team wish to line up an Exhibition Game please follow one of these procedures.

**A) THE TEAM YOU WILL BE HOSTING USES
GAMESHEET BUT NOT IN YOUR LEAGUE (IE
ALLIANCE)**

1 [Email GameSheet 2 - 3 days in advance with the following.
\(info@gamesheetinc.com\) or \(abeer@gamesheetinc.com\)](mailto:info@gamesheetinc.com)

Your Name and Cell Number
Date of Game, Your Full Team Name, Your League, (OMHA
AAA, West) Your Division (U11) and the Type of Game
(Exhibition)
The Full Name of the Team that you are playing, the League
they play in, the Division they play in.

2 GameSheet will then move that team over to your Division -
(U?? Exhibition).

3 Once the team is moved over your Team Manager/Coach
will be able to create the game from scratch. Remember to
select "Type of Game" Exhibition. We suggest you wait until
a few hours before, in case the other team edits their roster
via the dashboard.

**B) THE TEAM YOU WILL BE HOSTING/PLAYING DOES
NOT USE GAMESHEET AND NEEDS AN INVITATION
CODE**

1 [Email GameSheet 2 - 3 days in advance with the following.
\(info@gamesheetinc.com\) or \(abeer@gamesheetinc.com\)](mailto:info@gamesheetinc.com)

Your Name and Cell Number
State that the team you are playing does not use
GameSheet and will require an invitation code

Date of Game, Your Full Team Name, Your League, (OMHA AAA, East) Your Division (U11) and the Type of Game (Exhibition)

The Full Name of the Team that you are playing, the League they play in, the Division they play in. Email for the contact person, usually the manager

2 GameSheet will put this Team in the appropriate Division - (U?? Exhibition)

3 GameSheet will have also issued an Invitation Code and sent it to the team. If the team has not set up an account and loaded their roster their coach / manager can quickly add in their roster right before the game on the Scoring app.

Here are some documents that can help guide the team that was given an invitation code

[Scratch in the Scoring app](#)

4 Once the team is moved over your Team Manager/Coach will be able to create the game from scratch. Remember to select "Type of Game" Exhibition. We suggest you wait until a few hours before, in case the other team edits their roster via the dashboard.

C) THE TEAM YOU WILL BE HOSTING USES GAMESHEET AND IS IN YOUR LEAGUE

1 Since both teams are already in the league, you can simply create the game from Scratch at the rink. Here's how:
